Cardboard Tube Rocket

You will need:

Long cardboard tube

Silver foil

Tissue paper

Brightly coloured card

Brightly coloured paint

PVA glue

Scissors

Sticky tape

Instructions

1. First paint the cardboard tube in a bright colour, then leave to dry.

2. For the top of the rocket, choose a different coloured card. Then draw around a small circular object, such as a cup, onto this.

3. Cut out the circle. Then also cut out a line going from the outside to the centre of the circle, stopping once you reach the middle.

4. Roll the circle into a cone shape, then secure using sticky tape.

5. Stick two pieces of tape on the inside of the cone. Then stick the cone onto the top of the cardboard tube.

6. Now make some windows for the rocket using silver foil. To do this, draw around a small circular object onto the foil three times.

7. Next cut out the circles in silver foil and stick then onto the rocket using PVA glue.

8. For the flame, take some pieces of tissue paper and place them onto of each other in layers.

9. Pick up the layers of tissue paper and cut the strips vertically into them, ensuring the cuts do not go right to the top.

10. Finally, gather the sheets of tissue paper at the top, then secure and strengthen this by sticking tape around it.

11. Using sticky tape to attach the flame to the bottom of the rocket.
